Education

- **Temple University Japan** Tokyo, Japan
B.S. in International Business; Minor in Computer Science 2019 – 2023

Experience

- **ベック英才学院合同会社** Saitama, Japan
Full Stack Engineer Sep 2023 – Present
 - Built Android, iOS, and Windows apps that 80 students and 20 teachers open every day. Flutter/Dart on the front, AWS (S3, DynamoDB, Cognito) on the back.
 - Before each release I asked 5+ educators what was getting in the way, and fixed that.
 - Looked after the AWS and Google Cloud side: logins, file storage, the databases.
 - JavaScript for the in-house web tools.
- **ベック英才学院合同会社** Saitama, Japan
English Teacher Jul – Oct 2025 (substitute); Jan 2026 – Present
 - Wrote EIKEN-style lesson plans for Pre-K through Grade 6.
 - Kids told me which screens were confusing. I added, changed, or cut them.
- **BEC iCUBE** Saitama, Japan
STEM Educator Dec 2024 – Mar 2025
 - Taught STEM in English to 10 students, ages 7–8, with hands-on projects and games.

Personal Projects

- **Audio Tools:** Takes a song apart into stems and writes the guitar part out as a tab PDF. Testers get a Mac or Windows installer. React, TypeScript, FastAPI, Demucs, job queue, object storage.
- **Loqui Quest:** Phone game so Japanese kids can practice English. Godot. Speech recognition and word progress saving.
- **Clonstagram:** Workplace app: profiles, shared calendar, photos, comments. Flutter for more than one OS.
- **Choose Your Own Adventure:** D&D-style game you play by typing. AI model writes the next bit of story, DALL·E draws the room. Classes, inventory, dice.

Programming Skills

- **Skills:** Flutter, Dart, TypeScript, JavaScript, Python, Java
- **Cloud & Tools:** AWS, Google Cloud, Pocketbase, GitHub
- **AI Tools:** Cursor, Claude Code, Gemini, Codex, OpenCode, LLMs
- **Platforms:** Android, iOS, Windows, MacOS, Linux
- **Languages:** English (Fluent), Japanese (conversational), Cantonese (conversational), Mandarin (basic), Tagalog (basic)
